Topic 14 | Switch Node & Workflow Routing

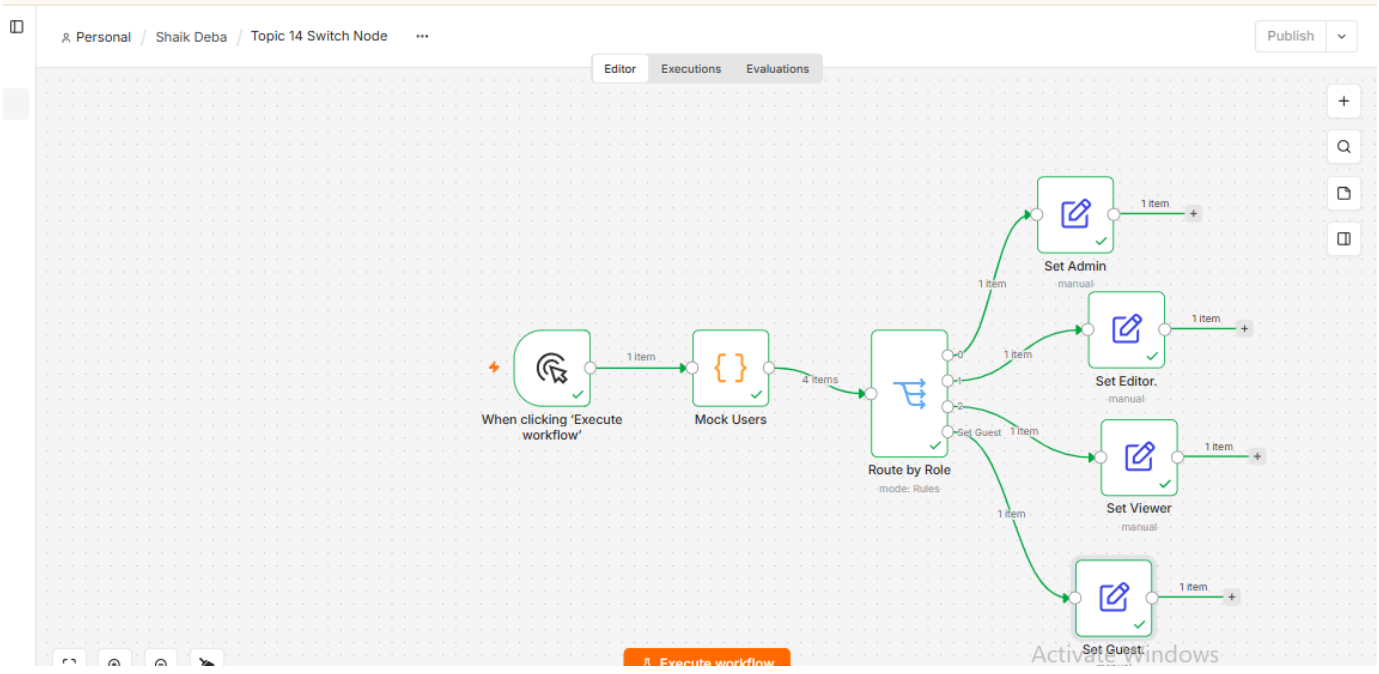

Execution Evidence - n8n Hands-On Beginner Course

Screenshots supplied from the completed workflow. Four user records were routed to the corresponding role branches, with one item visible per output.

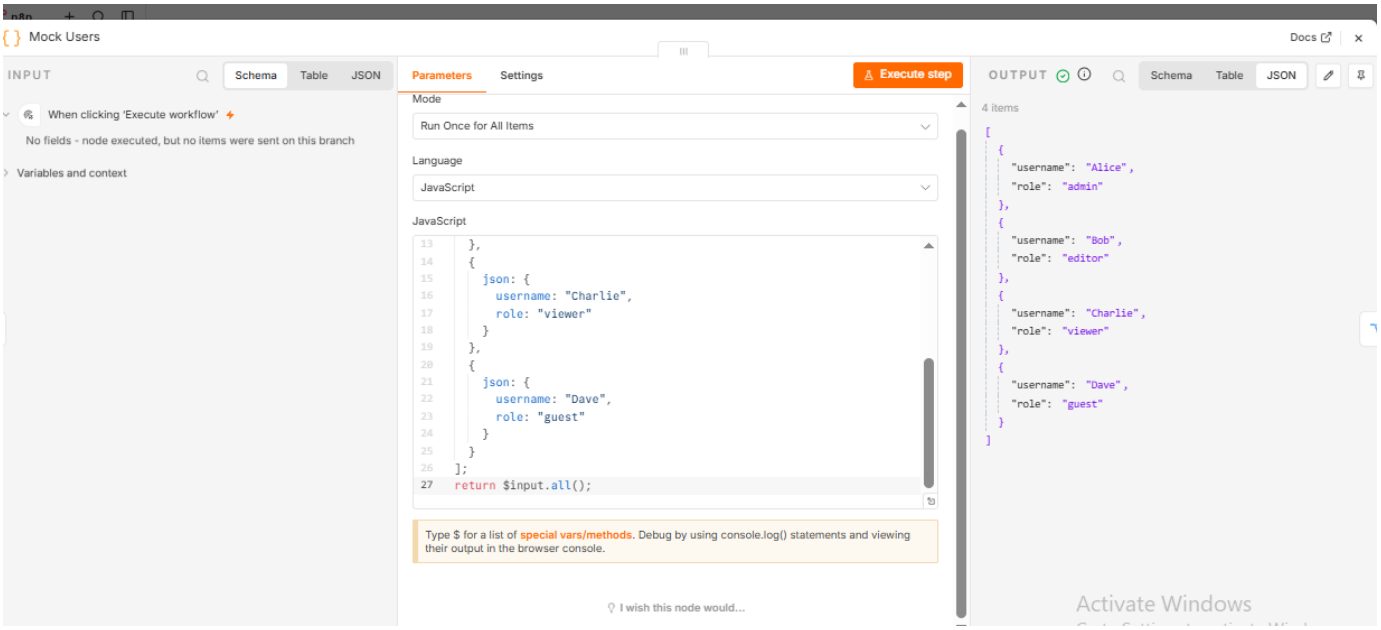

1. Workflow canvas - four routes executed

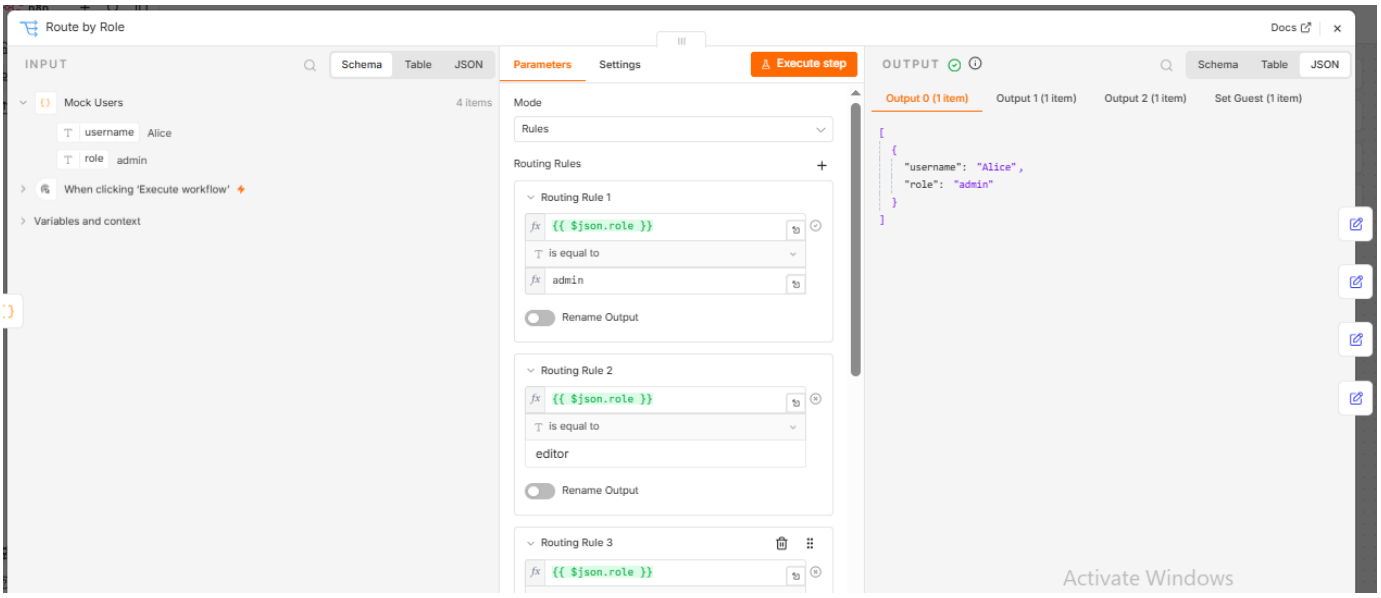

2. Workflow canvas - complete branch connections

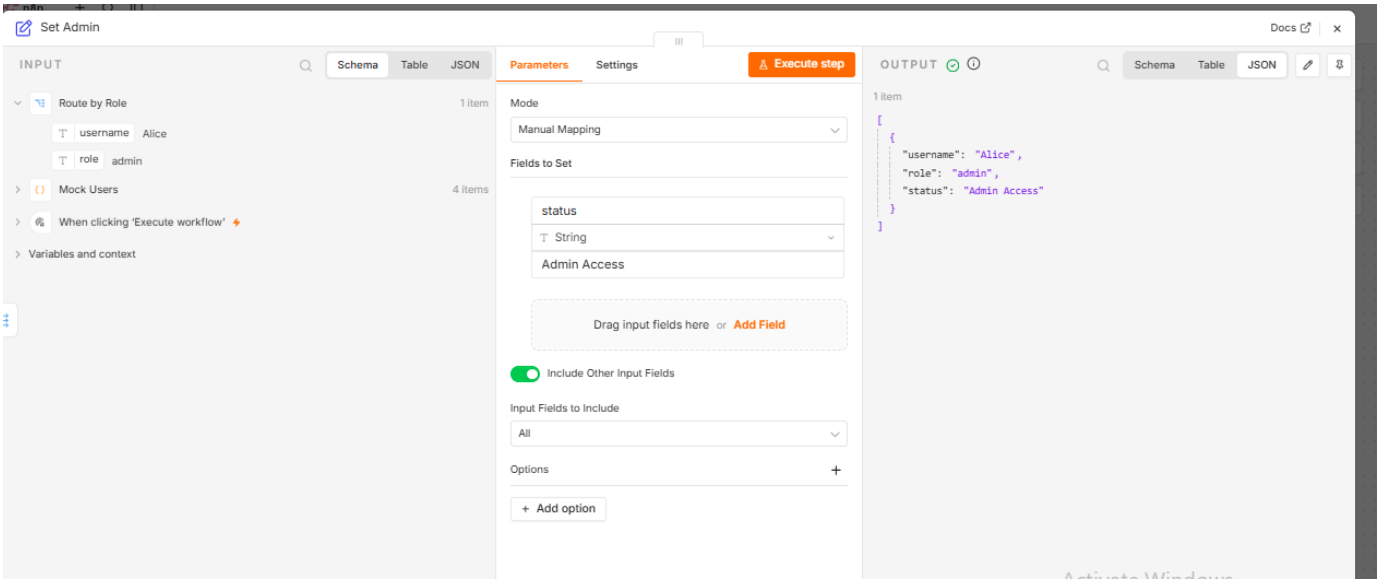

3. Mock Users - four generated records

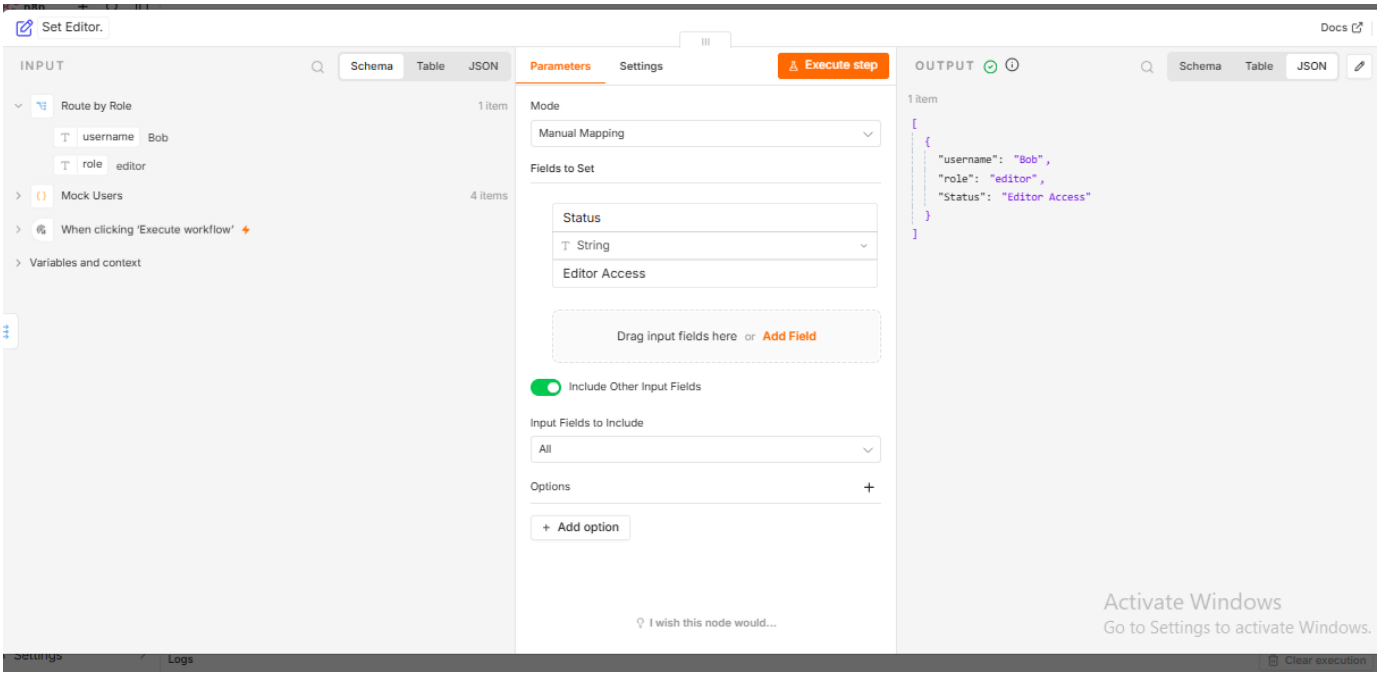

4. Route by Role - comparison rules and outputs

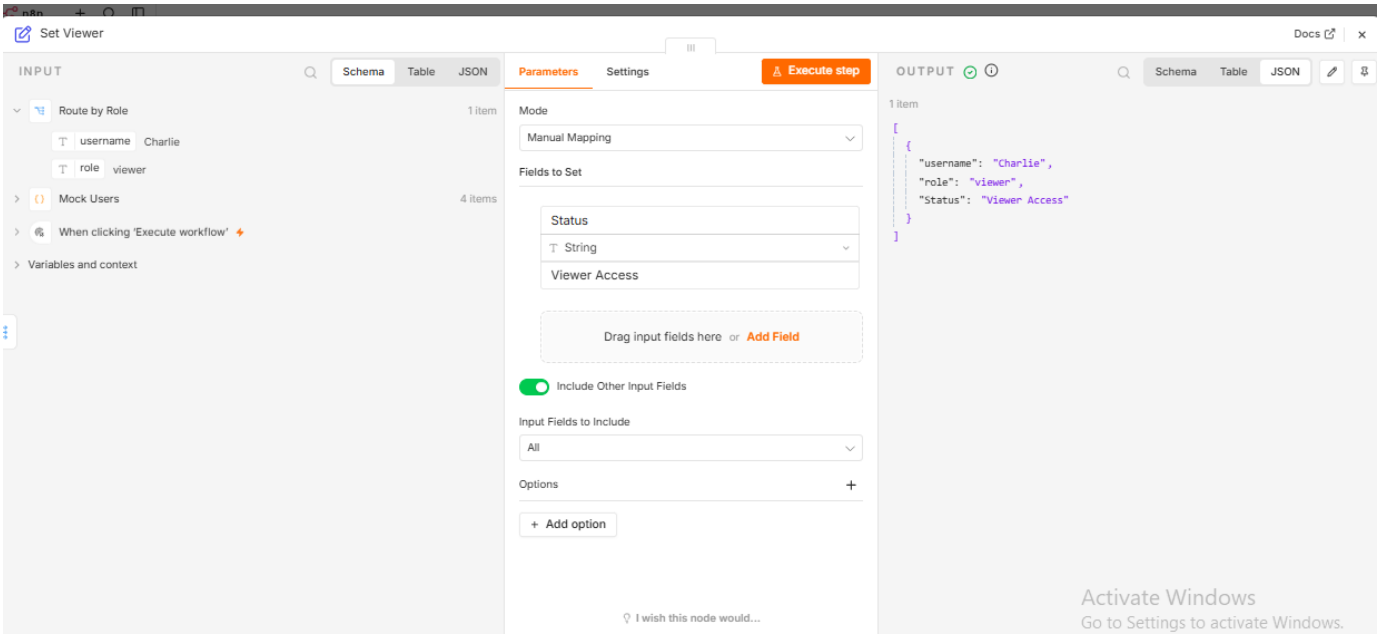

5. Set Admin - Alice routed to Admin Access

6. Set Editor - Bob routed to Editor Access

7. Set Viewer - Charlie routed to Viewer Access

8. Set Guest - Dave routed to Guest Access
